Stephanie:

Our telephone conversation occurred on May 26, 2015 from 10:42 to 10:48 AM EDT.

1. R2 17-mi FS Review - As a follow-up to the May 11, 2015 R2-CPG Teleconference, I told you that the CPG wants the Region to provide a complete and detailed review of the draft 17-mi FS. You asked if we wanted a high-level review. I said that the CPG wants a detailed review of the draft FS; however, if the R2 wishes to provide a high-level review in the interim that was up to the Region. You said that you would discuss this with Ray and that you might want to discuss this with the CPG further. You went on to say that R2 could not make a commitment when you could provide comments on the FS because of the number of documents you are currently reviewing and resource constraints. I acknowledged.

2. R2 17-mi BHHRA Comments - You said that it was unlikely that the comments would be provided to the CPG this week that it would probably be next week. You are currently reviewing the comments against the PFD, Data Usability Plan, RARC, and R2's previous comments to ensure that the Region's HHRA comments are not inconsistent with those documents. I said the CPG agrees with that step.

3. 17-mile BERA Comment Resolution - I told you that the CPG was preparing a letter that documents the resolution of comments 11, 13, 51 & 52 and that I hoped to send it to you later this week.

Please contact me with any questions.

Thank you.
